WE DEMAND:

We call for a powerful feminist strike on 14 June 2023.

We will strike at work, at home, in education, in consumption and in public spaces. We have concrete and urgent demands for change from the patriarchal and capitalist system. of the patriarchal and capitalist system:

- General reduction of (paid) working hours and equal pay for work of equal value
- Immediate strengthening of the AHV and abolition of the three-pillar system in old-age provision in favour of a single pillar
- Nationwide measures to combat gender-specific, sexualised and domestic violence
- Parental leave of at least one year per child for each parent
- Abolition of the private health insurance system and full coverage of the costs of reproductive and sexual health care.
- National plan and measures for the prevention of all forms of discrimination (against people of different faiths, colour or origin, people with disabilities or queer people).
- Asylum and residence permits for persons who have been discriminated against because of their feminist struggle and/or their sexual orientation and had to flee their country of origine.
- National action plan & measures for climate and environment
- Anchoring intersectional feminism in education
- Constitutional Right to free abortion

If just one of these demands would improve your living conditions, then join us!
